

Press Release:

## Brand Amplifier finale

16/11/2010

Wednesday 17th November will see Sarah Newton Garden Design promoting Garden Design and planting with winter in mind at the 'Brand Amplifier Finale'.

Brand Amplifier Best Business Vision Awards 2010 is the brainchild of Jeanette of J.P. Creative with help from two other successful women in Business, and sparked off by a chance meeting in preparation for their awards.

Determined not only be the best in their field, but keen to pass on their wisdom, the mentors invited 10 very diverse creative lady entrepreneurs in South East London to take part in a set of 4 work shops designed to grow our business visions and tell the world loud and proud.

This Wednesday 17th Nov 2010 we have to put it to the panel including 2 of our mentors and Lambeth Council Chief Executive, Derrick Anderson, in the form of a 10 minute pitch. The aim is to win mentoring and funds to help build the business.

With thanks to our fabulous and really quite witty mentors - Jeanette Pritchard of [JP Creative](#), Katie Perrior of [In House-PR](#), and Claire Morton of [Alchemy](#).

## Sarah Newton Garden Design Promoting Gardens for Winter

Why not have a winter wonderland? Check out the new Winter postcard for inspiration; first of a seasonal range, available as of Wednesday 17th Nov 2010!

### Seasonal offer - Get in early!

**First 2 consultations free during Nov - Dec 2010**

After which the latest rates apply.

Gardens aren't just for Spring and Summer, and fresh air won't hurt us when it's chilly - just look at what the wildlife and plant life are up to. Make plans for a compost heap if you haven't got one already. It's a great time to break up the ground, mulch and plant trees, hedges, fruit plants and roses. In fact; get the backbone of your planting scheme in place for the rest of the years' plants to hang on. Let me help you get your garden revitalised this winter!

If you want the latest on links and ideas as I find them go to;
